Whereas the lack of repair and upkeep of both residential and commercial properties in our City often poses a direct safety concern to neighbours and others in our community and leaves a poor image of the health of our City;  
And whereas the City has several by-laws and policies to deal with the condition of such properties and the complaints of residents with respect to those problems;  
And whereas some residents are of the opinion that the process currently in place to effectively cause compliance takes too much time and may require too many resolutions of City Council before any effective action is taken;  
And whereas it has been sometime since the City has reviewed its Minimum Standards By-laws and Policies;  
Now therefore be it resolved that the appropriate staff review the current by-laws and policies to determine whether or not a more effective and expedient way of proceeding might be available for the City to ensure compliance and to recommend any possible improvements to City Council. CARRIED.

Whereas many farmers from the rural areas of the City of Sault Ste. Marie and the District of Algoma are organizing a “hay drive” to assist Western Canada farmers who are experiencing one of the worst droughts on record; and  
Whereas local farmers have agreed to donate hay from their fields and have approached local industries to assist with providing rail access and loading services for rail shipment; and  
Whereas the federal government has already committed assistance in arranging rail shipments of hay to the Western Provinces and local farmers are attempting, through Carmen Provenzano, local M.P. to have some of these rail cars allocated to Sault Ste. Marie;  
Now therefore be it resolved that the City of Sault Ste. Marie receives the letter from Barb Wallace, local organizer, requesting financial assistance from the City and approves such assistance to a maximum of \$1,000.00, conditional on the federal government and/or private industry donating, allocating and arranging rail shipment of locally donated hay for the assistance of Western Canada farmers.
