Whereas Northern communities including Sault Ste. Marie are dependent on their forests for economic, social and cultural reasons; and

Whereas the management of forests should use the best science available and should be open to public consultation and monitoring; and

Whereas forest management should recognize the importance of maintaining industries like the forest industry by ensuring a consistent supply of wood into the future and acceptable operational and environment costs to secure a profitable position in the global economy; and

Whereas one of the conditions of the 1994 Environmental Assessment Act approval included a review in 2002 by the Ministry of Natural Resources to ensure all other conditions of approval were being complied with as the forest management plan is continued into the future;

Now Therefore Be It Resolved that City Council supports the continued balanced approach to forest management in Ontario and urges the Minister of the Environment to extend the current Class EA approval as proposed by the Ministry of Natural Resources for Timber Management on Crown Lands in Ontario; and

Whereas the City of Sault Ste. Marie has recently completed a comprehensive Transportation Study that has included consideration of improved linkages from the International Bridge to the Trans Canada Highway 17 entrances to our City; and
Whereas improved linkages, including a new direct truck route will effectively eliminate the current congestion, inefficiency and safety concerns in the existing connecting link system; and
Whereas the cost to construct such highway linkages from the Sault Ste. Marie International Bridge is estimated at \$15 million and will therefore require significant contribution from the senior levels of government; and
Whereas the Honourable Allan Rock, Federal Minister of Industry has recently announced funding to assist border communities to improve roadways from international crossings to the country's major highways;
Now therefore be it resolved that City Council supports the request of the City Engineer dated 2002 09 04 to the Federal Government for consideration of assistance for the construction of the proposed new truck route from the International Bridge to Highway 17 and further that copies of this request and resolution be forwarded to Sault Ste.
